About me

I am a fourth-year Ph.D. student at the University of Trento (Italy), supervised by Prof. Elisa Ricci and Dr. Massimiliano Mancini. My research initially focused on lifelong learning, specifically on continually updating classification models and on unlearning outdated or private information. I have since shifted my focus to (multimodal) LLMs: my first paper in this area studied the proactiveness of MLLMs, and I am now investigating how post-training shapes the factual knowledge of LLMs. Along the way, I have gained hands-on experience training vision encoders (supervised and self-supervised), fine-tuning MLLMs, post-training LLMs with RL and distillation (e.g., GRPO and on-policy self-distillation), and running multi-node distributed training. I am also interested in deep learning architectures, model efficiency, and video LLMs.

Education

Ph.D. **University of Trento**, Information Engineering and Computer Science — Nov 2023 – Nov 2027

MSc. **University of Trento**, Artificial Intelligence Systems — Sept 2021 – July 2023

- 110/110 Cum Laude

Experience

FunAI Lab - Prof. Yuki Asano, Visiting Researcher — Nuremberg, DE, Jan. 2026 - June 2026

- Worked on LLM post-training with a focus on investigating factual knowledge acquisition, loss, and reappearance.

Inria - Thoth, Research Intern — Grenoble, FR, Feb. 2023 - May 2023

- Developed a new state-of-the-art class-incremental learning method using PEFT and ViTs.
- Reduced computational overhead compared to previous methods.
- Work awarded **oral presentation** at ICCV 2023 Workshop.

BlueTensor, AI Engineer Intern — Trento, IT, May 2021 - Oct. 2021

- Delivered computer vision pipelines for panoptic segmentation, object recognition, and face re-ID.
- Engineered behavior clustering using BERT and k-means.
- Designed multi-camera tracking infrastructure.

Publications

Did Your LLM Really Forget? Measuring Factual Recall During LLM Post-Training — Under review

Teaching

University of Trento, Deep Learning Teaching Assistant — Trento, IT, Feb. 2025 - Feb. 2026
- Delivered labs on PyTorch (MLP, LeNet, CLIP) using Google Colab and AWS.
- Designed a project on few-shot CLIP adaptation (Oxford Flowers dataset).
- Graded projects (1/3 of final course grade).

University of Trento, Course Tutor for Programming and Deep Learning — Trento, IT, Sep. 2022 - June 2023
- Designed and evaluated exercises for C/C++ programming.
- Assessed student projects and led oral evaluations in deep learning.

Awards

Outstanding/Top reviewer: CVPR 2025 and 2026, and NeurIPS 2026.

Oral presentation: ICCV 2023 (VCL Workshop) and ECCV 2026 (U&Me Workshop).

ISCRA-B Grant: 200,000 GPU hours on Leonardo (Italy).

ISCRA-C Grant (x3): 10,000 GPU hours on Leonardo (Italy).

EuroHPC Grant: 8,000 GPU hours on Marenostrum (Spain).

EuroHPC Grant: 300,000 GPU hours on Leonardo (Italy).

Reviewer

Conferences: CVPR 24-25-26, ICLR 26-27, NeurIPS 26, AAAI 27, ICPR 24

Journals: T-PAMI, Neural Networks, RA-L, CVIU
